A Proven Track Record—Noltimier Polled Shorthorns

"We purchased 48 Polled Shorthorn bulls from North Dakota, most of which came from Noltimier's. They were all approximately one year old and were used on 600 lbs. yearling heifers at the rate of one bull to 25 heifers. The bulls did an excellent job and we were real well pleased. We came out with a 90 per cent conception and had very little trouble."

Rick Rutledge
Rick Rutledge, foreman
Pinedale Polled Hereford Ranch
Cora, Wyoming

"The cattle we purchased from Noltimier's in the Top Ten Sale are doing extremely well. They developed well and are making the type of females we desire. We are still using the Leader bull we bought from them. He has never sired a horned calf and has good length and muscle."

Robert J. Richardson D.C.
(Robert T. Richardson)
Meridian Farms
Wynnewood, Oklahoma

"I purchased the second top indexing bull at Stanford in 1970 from Noltimier's. The calves from this bull have done well for me and have won the champion honor at the Nile Show in Billings. This bull pleases me real well; he is an active breeder and sires the right kind."

John M. Otten
(John M. Otten)
Lewistown, Montana

"Have just been out in the pasture checking the cattle. The calves are doing good this summer, and see quite a few from N. P. S. LEADER 10G which look very promising, good size and scale for their age.

"The yearling calves by him look real good too, so the bull seems to be working out well for us."

Hillcrest Shorthorns
(Hillcrest Shorthorns)
Tower City, North Dakota

"Your cattle have given us the trim look that we desired in our herd. They have also crossed well with our dual purpose cattle. The heifers out of these cattle have produced some very heavy calves."

Wayne & Edward Novak
(Wayne & Edward Novak)
Fordville, North Dakota

"We have purchased two bulls from Noltimier's and have had excellent luck with both of them.

"The first bull purchased in 1966 sired calves weaning over 500 lbs. at 205 days. We sold this bull at 4½ years of age, weighing 1,980 lbs.

"Our second bull has also sired calves weaning over 500 lbs. They calve easy and the heifers grow into very feminine females with good udders. We find it a pleasure to do business with the Noltimier's.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers, sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial, for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
